IDENTIFIERS	*Texas (East)

ABSTRACT

The Technology Partnership Organization (TPO) is one of 24 Quality Work Force Planning (QWFP) entities in Texas. The TPO met its objectives through a variety of activities, including the following: (1) establishing a QWFP committee for the region; (2) providing an inventory of key regional industries with the greatest job opening potential and keying them into a software module; (3) producing inventories of occupationally specific secondary, postsecondary, adult, and proprietary school vocational-technical education programs, including apprenticeship programs, secondary occupationally nonspecific vocational-technical programs, adult education and literacy programs, and economic development organizations and services; (4) creating a brochure identifying 27 targeted occupations in East Texas; (5) supporting the activities of the Texas Innovation Information Network System; (6) exploring the development of secondary-level apprenticeship linkage programs; (7) developing skills inventories for two priority occupations--police officers and secretaries; (8) developing a service delivery plan for the region; and (9) conducting activities to implement the service delivery plan. (The Operational Plan is included as a major section of the document. The report also contains 12 appendixes: names and addresses of the board of directors; supplementary labor market data; lists of secondary occupational nonspecific programs, adult education and literacy programs, economic development initiatives, and targeted occupations and training programs; the targeted occupations brochure produced during the program; lists of secondary-level student apprenticeship linkage programs; skills inventories for targeted occupations; additional information; news releases; and an inventory of postsecondary programs. Introduction

This report is submitted to the Tri-Agency Partnership, comprised of the Texas Education Agency, the Texas Higher Education Coordinating Board and the Texas Department of Commerce by The University of Texas at Tyler and the Technology Partnership Organization.

Vocational Education Master Plan

In January of 1987, the State Board of Education and the Texas Higher Education Coordinating Board responded to a state directive to prepare a master plan for vocational-technical education and training. They published a document entitled, "Career Opportunities in Texas: A Master Plan for Vocational Education." It was viewed as a guide for conducting vocational education and training programs in preparation for the work force needs of the 21st century.

A number of earlier publications, to include the Hudson Institute's report, "Workforce 2000", underscored the importance of the close relationship between the preparation of a skilled, flexible and internationally competitive work force and economic vitality. Guided by the concerns expressed in these publications, the goals and objectives of the Master Plan focused on identifying existing and future demand jobs.

In the months following the approval of the Master Plan additional state publications reemphasized the importance of preparing a qualified work force. Among them were the recommendations of the Select Committee on Higher Education (February 1988) and the Strategic Economic Policy Commission Report (January, 1989).

Master Plan Updated

In 1989, the Master Plan was updated and is now structured into three major sections. The first section addresses vocational-technical education and training at the elementary and secondary education levels. The second highlights activities in the area of higher education. The third part of the revised Master Plan, entitled, "Achieving and Integrated Delivery System through Regional Planning", describes four strategies for effectively implementing a

statewide vocational education planning process. They include the following:

A. State Inter-agency Cooperation

B. Statewide Planning Initiatives

C. Institutional Linkages

D. Regional Information Source

In this edition, the Master Plan paves the way for the development of regional planning committees across the state of Texas. The purpose of these committees is to make sure that vocational-technical education and training programs support documented regional labor market needs.

Legislative Mandate

The Master Plan's blueprint for implementing regional planning committees in each of the state's 24 governor's planning regions reinforces a state mandate. With the meeting of the 71st Legislature in 1989, regional planning for vocational-technical education and training became law. However, this legislative requirement actually followed the implementation of six regional planning pilot projects. At this writing, a total of nine pilot projects have been funded and several have been initiated with funds from alternative sources.

At the meeting of the 72nd Legislature in 1991, the State Commissioner of Education was given authority to fund regional planning projects in all of the 24 planning regions of the state commencing in September of 1991.

Funded Projects

In 1987 three state agencies, the Texas Education Agency (TEA), the Texas Coordinating Board for Higher Education (THECB) and the Texas Department of Commerce (TDOC), funded three pilot regional planning projects using monies form the Carl D. Perkins Vocational Education Act and the Job Training Partnership Act (JTPA). The following year, three additional projects were funded and in 1989 the final three pilot project sites were selected for funding.

Technology Partnership Organization

Among the awardees in 1989 was The University of Texas at Tyler. UT Tyler had been supporting a voluntary regional planning project since 1985. This project, the Technology Partnership Organization (TPO), brought together representatives from higher education and industry in the fourteen-county region of East Texas. With the awarding of the regional planning contract to UT Tyler in 1989, TPO established much closer working relationships with all educational institutions in East Texas including the region's 75 independent school districts.

Quality Work Force Planning

In the spring of 1990, the term "Regional Planning" was replaced with the term "Quality Work Force Planning" to more accurately describe the mission of the initiative. "Quality Work Force Planning" will be used throughout the remainder of this document.

Final Report, TPO, 1990/91

The report which follows summarizes the results of the goals, objectives and activities conducted by the Technology Partnership Organization as required by the tri-agency partnership (TEA, THECB, TDOC) under the terms of the current contract.

Summary of Objectives, Activities, Findings and Recommendations

The Technology Partnership Organization (TPO) is one of twenty-four (24) Quality Work Force Planning (QWFP) entities in the State of Texas and one of nine (9) pilot projects which are jointly sponsored by a tri-agency partnership which includes the Texas Education Agency, Texas Higher Education Coordinating Board and the Texas Department of Commerce.

This final report is submitted for the purpose of documenting the accomplishments of TPO in meeting the objectives contained in the contract awarded to The University of Texas at Tyler for conducting Quality Work Force Planning in the East Texas planning region. The following summarizes the major objectives required by the funding agencies and the activities carried out to meet the objectives. Findings and recommendations are also included.

OBJECTIVE A: Establish and maintain a Quality Work Force Planning Committee for the region.

ACTIVITY: The TPO board of directors is comprised of forty-eight (48) voting members, half are from education and public sector agencies and half are from the private sector.

The public sector members include participants from independent school districts, Region VII Education Service Center, public community/junior colleges, the Texas State Technical College System, The University of Texas at Tyler, The University of Texas Health Science Center, the Texas Engineering Extension Service, the JTPA/East Texas Private Industry Council and adult education cooperatives.

The private sector members include employers, representatives from business and trade associations, labor and apprenticeship organizations, and economic development groups.

Members are also identified that reflect the demographic characteristics of the region with regard to race/ethnicity, gender, and population centers.

FINDINGS:

Board of Directors

	Male	Female	Subtotal	Percentage
Anglo	27	12	39	81%
Black	5	2	7	15%
Hispanic	2	0	2	4%

Urban	>5,000 persons	90%
Suburban	<5,000 dependent on another city	6%
Rural	<5,000	4%

Racial representation figures closely approximate the characteristics of the region.

Racial Distribution
East Texas Region

Anglo	79%
Black	18%
Hispanic	3%

A revised list of committee members is contained in **Appendix A** of this document.

RECOMMENDATIONS: None

OBJECTIVE B1: Produce an inventory of key regional industries with the greatest job opening potential.

ACTIVITY: TPO's Labor Market Information Subcommittee (LMIS), using regional data and the SOCRATES software provided by the State Occupational Information Coordinating Committee (SOICC), generated a list of growth industries for the East Texas area. Industries were ranked using quarterly Texas Employment Commission data for East Texas (i.e. industry employment data). These data were keyed into the SOICC INDEVAL (Industry Evaluation) software module. This produced a quotient (a number used for ranking) derived through the use of weighting factors (numbers assigned to express their relative importance by frequency of occurrence). This quotient was used to describe industry events and job growth (e.g., employment projections, number of business establishments, job openings, potential new hires, index of aggregate hours, etc.).

The subcommittee evaluated the results of this process and made subjective adjustments applicable to the East Texas region. A prioritized list of key regional industries was produced and coded with 2-digit Standard Industrial Classification (SIC) codes. This is a coding system maintained by the U.S. Office of Management and Budget which provides definitions and codings of industries based on the products or services rendered. The larger the coding number, the narrower the definition of the product or service [e.g., hospitals (806) make up 49.73% of health services (80) in East Texas]. The list was then submitted to the Industry Liaison Subcommittee (INLS) for further evaluation, modification and approval.

FINDINGS: **Table 1** and **Table 1A** have been included in the following. **Table 1** illustrates the output from the INDEVAL software module. Subcommittee members suggested the weights be changed from the INDEVAL default figures. However, the difference in the result was negligible, therefore the default weights were maintained. **Table 1A** illustrates the list of potential target industries and the final list of target industries with the justification for why the potential list was modified.

RECOMMENDATIONS: None

E

Justification to Modify List of Potential Target Industries

Lack of occupations suitable for training in eating and drinking places. Most business service occupations are in temporary help agencies. Most occupations in durable wholesale trade, that meet the criteria for training, crossover into other industries. Food stores ranked lower than identified initially. Most job growth in social services involve summer youth jobs (JTPA). Most occupations in nondurable wholesale trade, that meet the criteria for training, crossover into other industries. Most jobs in special trade that indicate growth are beyond the special vocational preparation training time established by our committee.

OBJECTIVE B2: Produce an inventory of targeted occupations within key regional industries.

ACTIVITY: A preliminary list of targeted occupations within key regional industries was developed by the Labor Market Information Subcommittee (LMIS). The LMIS used SOCRATES software and regional labor market data to generate the preliminary list. The following steps were taken to complete this process.

1) Additional information was used to expand the 2-digit SIC codes, from Objective B1, to 3-digit SIC codes.

2) This 3-digit list was keyed into MATSTATS (Matrix Statistical System), a SOICC software module which prioritizes occupations according to state staffing patterns (e.g., the percentage of supervisors, secretaries, maintenance personnel, etc. needed to support a given industry).

3) The subcommittee further refined these data with the interpretations and projections input of key individuals in business and education and an analysis of classified advertisements for employment opportunities. They then produced a list of twenty-four (24) targeted occupations. To be considered as a targeted occupation, a minimum of seventy (70) annual job openings were required. For some occupations, the overall forecasted percentage of growth from 1985 to 1995 was extremely high. For other occupations, the growth-to-replacement ratio (the number of new job openings created divided by the number of job openings due to replacement) was greater than one (1). In these cases exceptions were made and the occupations were recognized as targeted occupations provided they met with state criteria. Qualification, in the state of Texas, for selection as a targeted occupation requires a Specific Vocational Preparation Training (SVPT) time (the training code maintained by the Bureau of Labor Statistics) to be four (4) or greater [i.e., four (4) is over three (3) months up to and including six (6) months], a positive growth-to-replacement ratio, and a wage rate of $5.00 per hour or greater.

4) The list was then submitted to the Industry Liaison Subcommittee for modification. Based on each subcommittee member's understanding of the region's economy, a final list of targeted occupations for East Texas was developed.

FINDINGS: All occupations that do not indicate a growth-to-replacement ratio in **Table 2** and those occupations denoted with an asterisk (*) in **Table 2A** were derived from data gathered from personnel directors, training instructors, and job placement officers in the East Texas region. These contacts were made because many of the placements for employment in these occupations do not take place through the normal processes conduct by the Texas Employment Commission.

The SVPT time for child care workers falls short of the targeted occupations criteria [i.e., the SVPT time must be over three (3) months up to and including six (6) months] However, since child care was identified by the state as a priority occupation because of its importance to work force development, the subcommittee agreed to include it on the 1991-92 list of targeted occupations.

While gathering employment data, a need for training in occupations dealing with hazardous waste materials and environmental reclamation was revealed. However, the SOCRATES software system only contain data from existing occupations. Therefore, the Texas Innovation Information Network System (TIINS), the Environmental Protection Agency, the Nuclear Utility Services, Eastern Iowa Community College, Infotrac (a hazardous materials information center in Illinois) and various industries in East Texas were contacted to assess the need and the training necessary for hazardous waste technicians. After analyzing the data the subcommittee chose to include environmental laboratory technician as an emerging occupation.

Each targeted occupation found in the final list in **Table 2** is identified by an OES (Occupational Employment Statistic) code, a number assigned by the Bureau of Labor Statistics to classify occupations. Included with each targeted occupation in **Table 2** is the projected average yearly openings, the percentage change in employment from 1985 to 1995, the growth-to-replacement ratio, the average wage

per hour, and the SVPT time. In some cases, there was insufficient statistical information to provide a meaningful entry.

In **Table 3**, justification is given for each final target occupation along with the steps for validation. **Table 4** illustrates the relative to training, duration of training, and basic competencies/ skills attained for each targeted occupation. Supplemental labor market data can be found in **Appendix B**.

Training Delivery Information

L. FINAL TARGET OCCUPATION (from Table 3, col I)	M Method of Training	N Duration of Training (SVPT)	O Basic Competencies/Skills Attainment
1. AUTO/DIESEL MECHANICS	OJT/CLASS	1 TO 2 YRS	REPAIRS & OVERHAULS AUTOMOTIVE/DIESEL VEHICLES
2. CHILD CARE WORKERS	CLASS	1 TO 3 MO	CARE FOR PRESCHOOL CHILDREN
3. COMPUTER OPERATOR	CLASS	1 TO 4 YRS	MONITORS & CONTROLS COMPUTER TO PROCESS DATA ACCORDING TO OPERATING INSTRUCTIONS
4. COMPUTER PROG. AIDES	CLASS	2 TO 4 YRS	PLANS & WRITES COMPUTER PROGRAMS THAT STORE AND RETRIEVE INFORMATION THAT AUTOMATE OPERATIONS
5. COSMETOLOGISTS	CLASS	1 TO 2 YRS	GRADUATES OF A STATE LICENSED COSMETOLOGISTS SCHOOL AND COSMETOLOGY LICENSE
6. CORRECTION OFFICERS	OJT/CLASS	3 TO 6 MO	WORK WITH PRISON INMATES WITH EMPHASIS ON PERSONAL COUNSELING & REHABILITATION OF INMATES
7. ELECTRICIANS	OJT/CLASS		
8. ELECTRONIC TECH	CLASS	2 TO 4 YRS	WORKS WITH LAYOUT & ASSEMBLY PROBLEMS, CLARIFIES DESIGN DETAILS OF ELECTRONIC UNITS

M Method of Training is classroom/academic, on-the-job (OJT) or a combination (OJT/classroom).

N Duration of Training may be expressed as course contact hours or specific vocational preparation training (SVPT) times.

O Basic competencies include specific skills--equipment/tools--techniques which will comprise the training program.

TABLE 4

Training Delivery Information

L. FINAL TARGET OCCUPATION (from Table 3, col I)	M Method of Training	N Duration of Training (SVPT)	O Basic Competencies/Skills Attainment
1GEN. MAINTENANCE REPAIRERS	OJT/CLASS	2 TO 4 YRS	MAINTENANCE OF BUILDINGS & EQUIPMENT
2FIREFIGHTERS	OJT/CLASS	6 MONTHS TO 1 YR	SERVE IN FIRE PROTECTION
3LICENSED PRACT. NURSE	OJT/CLASS	1 TO 2 YRS	ADMINISTER MEDICATIONS, TASKS INCLUDE:PATIENT CARE CATHETERIZATION, CHANGING DRESSING (REPORTS TO RN)
4MEDICAL RECORD TECH	CLASS	2 TO 4 YRS	THE DESIGN, IMPLEMENTATION AND MANAGEMENT OF PATIENT INFORMATION SYSTEMS
5MEDICAL LAB TECH	CLASS	6 MONTHS TO 1 YR	ASSISTS IN CARING FOR PATIENTS BY PERFORMING TEXT IN THE MEDICAL LAB FOR USE IN DIAGNOSIS & TREATMENT
6NURSES AIDES	OJT/CLASS	3 TO 6 MO	ASSISTANT TO NURSE TASK: BATH, BEDMAKING & TAKING VITAL SIGNS
7PARALEGAL PERSONNEL	CLASS	2 TO 4 YRS	RESEARCHES & INVESTIGATES FACTS & PREPARES DOCUMENTS TO ASSIST LAWYERS
8PHYSICAL THERAPIST AIDE	CLASS	2 TO 4 YRS	DEVELOPMENT OF MUSCLE TONE & PHYSICAL STRENGTH THRU EXERCISE & RANGE OF MOTION, HOT & COLD PACKS REHABILITATION

M Method of Training is classroom/academic, on-the-job (OJT) or a combination (OJT/classroom).

N Duration of Training may be expressed as course contact hours or specific vocational preparation training (SVPT) times.

O Basic competencies include specific skills--equipment/tools--techniques which will comprise the training program.

TABLE 4

Training Delivery Information

L. FINAL TARGET OCCUPATION (from Table 3, col I)	M Method of Training	N Duration of Training (SVPT)	O Basic Competencies/Skills Attainment
1.POLICE PATROL OFFICERS	OJT/CLASS	1 TO 2 YRS	OFFICERS ARE DETAILED TO PATROL OR TO TRAFFIC DUTY
2.RADIOLOGIC TECH	OJT/CLASS	2 TO 4 YRS	PERFORMS ROUTINE & SPECIALIZED X-RAY EXAMINATIONS TO FUNCTION AS STAFF RADIOGRAPHER
3.REGISTERED NURSE	OJT/CLASS	2 TO 4 YRS	OVERALL MANAGER OF PATIENT CARE, ASSESSES, PLANS IMPLEMENTS & EVALUATES NURSING CARE
4.RESPIRATORY THERAPIST	CLASS	1 TO 2 YRS	MANAGING RESPIRATORY FUNCTIONS OF PATIENT, ADMINISTERS BREATHING TREATMENTS, MAINTAINS VENTILATORS, DRAWS ABG & INTUBATE
5.SECRETARIES, ALL	CLASS	2 TO 4 YRS	ACTIVITIES CONCERNED WITH PREPARING, TRANSCRIBING SYSTEMATING & PRESERVING WRITTEN RECORDS
6.SYSTEMS ANALYST	CLASS	2 TO 4 YRS	ANALYZES BUSINESS PROCEDURES & PROBLEMS TO REFINE DATA & CONVERT IT TO PROGRAMMABLE FORM FOR ELECTRONIC DATA PROCESS
7.TEACHERS & INSTRUCTORS	OJT/CLASS	4 YRS	CERTIFIED BY THE STATE TO IMPART KNOWLEDGE FROM EARLY CHILDHOOD TO ADULTHOOD
8.TRUCK DRIVERS, ALL	CLASS	3 TO 6 YRS	TRANSPORTATION OF CARGO FROM ONE GEOGRAPHICAL LOCATION TO ANOTHER BY TRUCK.

M Method of Training is classroom/academic, on-the-job (OJT) or a combination (OJT/classroom).

N Duration of Training may be expressed as course contact hours or specific vocational preparation training (SVPT) times.

O Basic competencies include specific skills--equipment/tools--techniques which will comprise the training program.

OBJECTIVE B3: Produce an inventory of occupationally specific secondary, postsecondary, adult, and proprietary school vocational-technical education programs, including apprenticeship programs.

ACTIVITY: An inventory of all occupationally specific vocational-technical education and training programs was produced by the Technical/Vocational Subcommittee (TVOS). An update of secondary and postsecondary programs was provided by the Texas Education Agency and the Texas Higher Education Coordinating Board.

FINDINGS: This inventory can be found in **Appendix L**.

RECOMMENDATIONS: None

OBJECTIVE B4: Produce an inventory of secondary occupationally non-specific vocational-technical education programs.

ACTIVITY: The inventory of secondary occupationally non-specific programs was provided by the Texas Education Agency.

FINDINGS: This inventory is included in **Appendix C**.

RECOMMENDATIONS: None

OBJECTIVE B5: Produce an inventory of adult education and literacy programs.

ACTIVITY: An inventory of adult education and literacy programs was produced by the Technical/Vocational Subcommittee and the Special Programs Subcommittee.

FINDINGS: **See Appendix D**

RECOMMENDATIONS: None

OBJECTIVE B6: Produce an inventory of economic development organizations and services.

ACTIVITY: The LMIS contacted a telephone survey of all regional economic development organizations in order to update the previous year's inventory.

FINDINGS: **See Appendix E**

RECOMMENDATIONS: None

OBJECTIVE B7: Produce an inventory of vocational-technical education and training programs for the targeted occupations identified under 2.b.(2) above.

ACTIVITY: The TVOS compared regional occupational education and training programs with targeted occupations.

FINDINGS: See **Appendix F**

RECOMMENDATIONS: None

OBJECTIVE C: Produce a document featuring the region's targeted occupations in a concise, easy-to-understand format for use by educators, training providers, students, counselors and employers.

ACTIVITY: A brochure identifying twenty-seven (27) targeted occupations in East Texas was produced.

FINDINGS: **See Appendix G**

RECOMMENDATIONS: Recommend inclusion of training time and average entry-level wage in future targeted occupations brochures.

OBJECTIVE D: Support the activities of the Texas Innovation Information Network System (TIINS) within the region.

ACTIVITY: The University of Texas at Tyler is a TIINS regional database office.

FINDINGS: None

RECOMMENDATIONS: None

OBJECTIVE E: Attend planning-related conferences as requested by the Project Coordinator.

ACTIVITY: Staff attended the training seminar for Quality Work Force Planning in Austin on March 27 and 28, 1991. Presentations regarding Quality Work Force Planning were provided by Bill Alexander and Jon McCall.

FINDINGS: None

RECOMMENDATIONS: None

OBJECTIVE F: Explore and report on the possibility of developing secondary-level student apprenticeship linkage programs for targeted occupations within the region.

ACTIVITY: Dr. Jerry King and Glynn Richards produced a report for developing secondary-level apprenticeship linkages in East Texas.

FINDINGS: The report can be found in **Appendix H**.

RECOMMENDATIONS: None

OBJECTIVE G: Develop skills inventories for at least two priority occupations within the region. The task forces shall provide the skills inventories to entities training students for the occupations and assist those entities in making appropriate competency-based curriculum modifications. The task force shall consider using the DACUM methodology.

ACTIVITY: Dr. Jerry King, Ms. Elaine Roberts and Glynn Richards identified competencies for two priority occupations (Police Patrol Officers and Secretaries).

FINDINGS: The report can be found in **Appendix I**.

RECOMMENDATIONS: None

OBJECTIVE H: Develop a Service Delivery Plan for the region for the period July 1, 1991 through June 30, 1992 that is based upon targeted occupations and related programs, services, and activities identified by the Quality Work Force Planning Committee. The plan should focus upon three-five identified targeted occupations.

ACTIVITY: Plan Development Task Force met in April and May to develop the Service Delivery Plan. The Plan was approved on June 12, 1992.

FINDINGS: None

RECOMMENDATIONS: None

OBJECTIVE I: Obtain signed letters endorsing the region's 1990-91 Service Delivery Plan from independent school districts, postsecondary institutions, and private industry councils within the project region.

ACTIVITY: Each of the agencies identified above received a copy of the TPO Service Delivery Plan. Signed letters of endorsement were obtained.

RECOMMENDATIONS: None

OBJECTIVE J: Conduct activities to implement the region's 1990-91 Service Delivery Plan.

ACTIVITY: The following is the results of the goals, objectives and activities conducted to implement the 1990-91 Service Delivery Plan.

OPERATIONAL PLAN

The Operational Plan for Vocational-Technical Education and Training in East Texas (1990-91) is based on data collected in the previous sections. It is directed at taking definite steps to make certain that training is provided for targeted occupations. The **Mission** of the Technology Partnership Organization (TPO) is to form a business, industry and education partnership that will improve economic development and enhance the quality of life in East Texas by planning for a skilled and educated work force through the use of an integrated occupational education delivery system which emphasizes academic applications.

Operational Plan
1990-1991

GOAL 1 Develop an integrated occupational education delivery system involving the input of business, industry, agencies and government while providing for the flexible use and sharing of physical and human resources.

OBJECTIVE 1.1 Identify independent school districts and postsecondary institutions offering courses that support targeted and emerging occupations.

Results:
Local educational agencies supporting targeted occupations and emerging occupations were identified. See OBJECTIVE 2.1 below.

Recommendations:
Quality Work Force Planning entities can meet with the greatest amount of success when strong linkages are forged with regional Private Industry Councils. It would be helpful if the state Department of Commerce would provide additional incentives to the PIC's to work collaboratively with the QWFP groups.

OBJECTIVE 1.2 Facilitate the sharing of personnel, facilities, and equipment among occupational education providers, industry, government, etc.

ACTIVITY 1.2.1 From activity 3.3.1 (Program Duplication) recommend alternatives for resource sharing.

ACTIVITY 1.2.2 Recommend alternatives for using local education agency personnel, facilities, and/or equipment for industry training.

ACTIVITY 1.2.3 Identify alternatives for using industry personnel, facilities, and/or equipment for local education agency training.

Results:
Many of the school districts and colleges participating in TPO have found their capability to provide for resource sharing among school districts and regional industries be improved with the implementation of Quality Work Force Planning activities. Specifically, Tyler Junior College (TJC) Provides instructors for the Tyler Independent School District. TJC does not charge local school districts for the use of vocational lab facilities. Chapel Hill ISD provides CVAE shop for training conducted by TJC instructors.

Recommendations:
See Recommendations in OBJECTIVE 1.1 above.

GOAL 2 Implement a system to provide labor market information data to all occupational education and training providers in East Texas.

OBJECTIVE 2.1 Develop a labor market information database.

ACTIVITY 2.1.1 Establish a valid inventory of education and training programs in East Texas.

ACTIVITY 2.1.2 Establish a valid inventory of job openings in East Texas.

ACTIVITY 2.1.3 Identify emerging occupations.

ACTIVITY 2.1.4 Identify targeted occupations in East Texas.

Results:
A directory of all secondary, postsecondary and proprietary entities offering occupationally specific programs was published and distributed. An inventory of current and projected job openings in East Texas was compiled. Regional targeted and emerging occupations were determined.

Recommendations:
None

OBJECTIVE 2.2 Match targeted programs with targeted occupations to determine training needs.

Results:
A supply/demand correlation table was submitted to the Project Coordinator on April 1, 1991. See ***Appendix F.***

Recommendations:
None

OBJECTIVE 2.3 Establish a supplementary job opening forecast system.

ACTIVITY 2.3.1 Develop a system to forecast job openings.

ACTIVITY 2.3.2 Identify emerging technologies and assess impact on training.

Results:
Progress was made toward the accomplishment of this objective. However, the system was not completed. Initial results proved to be much more time consuming than anticipated. Adequate subjective information was obtained from the QWFP subcommittees regarding regional targeted and emerging occupations.

Recommendations:
Continue to use SOICC software.

OBJECTIVE 2.4 Develop a system to coordinate and utilize existing follow-up information at a regional level.

ACTIVITY 2.4.1 Identify existing follow-up systems used by East Texas occupational education and training providers and agencies.

ACTIVITY 2.4.2 Review current follow-up systems.

Results:
Activity on this objective was suspended.

Recommendations:
Reconsider when state follow-up systems are in place.

GOAL 3 Facilitate the implementation and/or modification of priority occupational education and training programs to match needs.

OBJECTIVE 3.1 Provide technical assistance regarding targeted occupations.

Results:
Support was provided to various LEA's to include: Malakoff ISD, John Tyler High School, Harleton ISD, Ore City ISD, Tyler Junior College, and Kilgore College.

Recommendations:
None

OBJECTIVE 3.2 Advise training providers of alternatives for initiating or modifying programs.

Results:
TPO provided assistance to various regional training providers.

Recommendations:
None

OBJECTIVE 3.3 Provide information regarding potential program duplication.

ACTIVITY 3.3.1 Identify potential program duplication.

ACTIVITY 3.3.2 Provide suggested alternatives to alleviate unnecessary program duplication.

Results:
Suggestions were provided to LEA's when requested.

Recommendations:
The program inventory provides a good basis for communicating program duplication. This seems to be an adequate method for addressing this issue. Methods of communicating program duplication more directly should be avoided.

OBJECTIVE 3.4 Make recommendations regarding pre-employment knowledge and skills.

ACTIVITY 3.4.1 Conduct survey among East Texas industries to identify desired pre-employment skills.

ACTIVITY 3.4.2 Make recommendations regarding pre-employment knowledge and skills to occupation education providers and agencies.

Results:
Available resources did not provide for accomplishment of this objective.

Recommendations:
This is a very important objective. It is included in the 1991/92 Service Delivery Plan.

OBJECTIVE 3.5 Make recommendations for the development of programs in the areas of General Maintenance Repair and Medical Records Technician.

Results:
The TVOS was successful in assisting Kilgore College and Tyler Junior College to implement programs in General Maintenance Repair. John Tyler High School now provides courses in General Maintenance Repair. Tyler Junior College will offer a program in Medical Records in the fall of 1991. See ***Appendix L.***

Recommendations:
None

GOAL 4 Facilitate articulation of selected vocational-technical education and training programs.

OBJECTIVE 4.1 Determine interest in the development of articulation agreements.

ACTIVITY 4.1.1 Create a resource file of all articulated programs in Texas.

ACTIVITY 4.1.2 Conduct a survey to determine interest in articulation programs.

Results:
A survey was conducted among all ISDs in the region to determine interest in developing articulation agreements and/or Tech-Prep programs. The findings of the survey were matched to the TPO list of targeted occupations to identify which programs were best suited for the Tech-Prep implementation. Meetings were conducted to feature existing articulation programs in the region.

The meeting schedule was as follows:

Program	*Date*
Agriculture	*April 22*
Health Occupations	*April 24*
Automotive Technologies	*April 29*
Child Development	*May 1*
Business and Office Technologies	*May 2*

Concurrent with these activities UT Tyler applied for a state grant to plan for the development and implementation of Tech-Prep programs. The grant was awarded to UT Tyler. Tech-Prep planning activities are currently being conducted in the areas of:

Industrial Technology
Health Occupations
Business and Office Technologies
Automotive Technology
Child Development

Recommendations:
None

OBJECTIVE 4.2 Develop articulation agreements in the areas of existing funded articulation programs in East Texas, to include: Horticulture, Auto Mechanics, Business Office Occupations, and Nursing.

ACTIVITY 4.2.1 Develop an ad-hoc articulation task force.

ACTIVITY 4.2.2 Develop a standardized regional articulation agreement.

Results:
See OBJECTIVE 4.1 above.

Recommendations:
None

GOAL 5 Increase the opportunity for special needs populations to participate gainfully in the labor force.

OBJECTIVE 5.1 Provide information regarding support services for special needs populations.

ACTIVITY 5.1.1 Identify special needs populations.

ACTIVITY 5.1.2 Develop a directory of support services and programs for special needs populations.

Results:
The Special Programs Subcommittee identified special needs populations and is developing a directory of support service contacts for special needs populations in East Texas.

Recommendations:
None

OBJECTIVE 5.2 Provide technical assistance to agencies serving special needs populations.

ACTIVITY 5.2.1 Provide assistance in grant writing.

ACTIVITY 5.2.2 Provide labor market data and consultation to those who are individualized educational plans for special needs students.

Results:
TPO enabled the formation of a consortium of local ISD's who did not meet the $15,000 minimum entitlement under current Carl Perkins funding. UT Tyler will act as fiscal agent for the consortium.Glynn Richards met with Jerry Lutz of the Texas Department of Human Services in October of 1990 and March of 1991 to discuss labor market needs for special needs populations. Drs. McKinnerney and Fabac conducted a presentation on Quality Work Force Planning for the Central and East Texas Service Providers on June 19.

Recommendations:
None

OBJECTIVE 5.3 Explore methods for assisting industry in the identification of literacy needs.

ACTIVITY 5.3.1 Conduct survey to determine existing industry methods for identifying literacy needs.

ACTIVITY 5.3.2 Develop a regional model for identifying literacy needs in industry.

Results:
Due to budgetary limitations this objective was not pursued.

Recommendations:
This activity is included in the 1991/92 Service Delivery Plan.

GOAL 6 Promote and support economic development efforts to improve the utilization of occupational education and training programs and services.

OBJECTIVE 6.1 Develop methods to provide information for demonstrating the beneficial relationship between occupational education and economic development initiatives.

ACTIVITY 6.1.1 Promote the appointment of TPO representatives to the boards of key economic development groups in East Texas.

ACTIVITY 6.1.2 Appoint representatives of key economic development groups in East Texas to the TPO Board od Directors.

Results:
John Fabac was appointed to the boards of the Northeast Texas Economic Development Roundtable, the East Texas Economic Development Commission and the Tyler chapter of the Texas Alliance for Minorities in Engineering. TPO staff attended numerous meetings dealing with economic development in East Texas.

*Board members who are representatives of key economic development groups are: Rick Brown, Bill Caldwell, Tommy Gates, Wendell Holcombe, Dr. Jerry King, Dr. Beryl McKinnerney, Gene Meier, Amanda Pratt, Mike Strotheide and Calvin Vanlandingham. See **Appendix A** for details.*

Recommendations:
None

OBJECTIVE 6.2 Provide information regarding the source of economic development support services.

ACTIVITY 6.2.1 Conduct an inventory of economic development support services in East Texas.

ACTIVITY 6.2.1 Conduct an inventory of economic development support services.

ACTIVITY 6.2.2 Develop a directory of economic development support services in East Texas and distribute to chambers of commerce, city/county governments, economic development groups, school/community college districts, etc.

Results:
The LMIS compiled an updated inventory of economic development support services in East Texas and updated the 1990 Directory of Economic Development Support Services.

Recommendations:
None

OBJECTIVE 6.3 Provide information to East Texas educational institutions regarding training needs related to economic development initiatives.

ACTIVITY 6.3.1 Update the existing inventory of economic development initiative training needs.

ACTIVITY 6.3.2 Disseminate findings to educational institutions regarding training needs related to economic development initiatives.

Results:
The updated inventory of economic development support services includes all related training needs.

Recommendations:
None

GOAL 7 Improve communications regarding the purpose and services of TPO.

OBJECTIVE 7.1 Create a Quality Work Force marketing plan.

ACTIVITY 7.1.1 Appoint an ad-hoc marketing committee.

ACTIVITY 7.1.2 Establish a committee to assess the need, use and value of Quality Work Force Planning committees to community groups such as:

.Economic development entities
.Business and industry
.Service agencies
.Legislators and other governmental officials
.Educational institutions

ACTIVITY 7.1.3 Develop and implement an annual TPO marketing plan.

ACTIVITY 7.1.4 Conduct three broadcast media interviews regarding quality work force planning.

ACTIVITY 7.1.5 Submit two press releases for publication.

ACTIVITY 7.1.6 Produce a 15 minute video tape highlighting the benefit of quality work force planning in East Texas.

ACTIVITY 7.1.7 Develop a speakers bureau and deliver six presentations.

ACTIVITY 7.1.8 Develop four newsletters in 12 months.

ACTIVITY 7.1.9 Produce targeted occupations brochure.

ACTIVITY 7.1.10 Produce a TPO services brochure.

Results:
Dr. Beryl McKinnerney, President of Technology Partnership Organization, appointed an ad-hoc marketing committee which was comprised of Communications Subcommittee (COMS) members. A TPO marketing plan was developed and implemented. The plan includes: 1) three broadcast media interviews, which are being coordinated by Jon McCall of KETK/Channel 56, 2) two press releases, 3) a 15 minute video tape highlighting the benefits of Quality Work Force Planning,being coordinated and scripted through the efforts of Jon McCall, 4) a speakers bureau, 5) newsletters, and 6) a TPO services brochure.

Accomplishments in this area were limited to one news release and several speeches. See ***Appendix M.***

Recommendations:
None

OBJECTIVE 7.2 Develop a method to facilitate communication among occupational education and industry training providers.

ACTIVITY 7.2.1 Conduct a feasibility study to assess the need for an electronic bulletin board to serve the East Texas occupational education and industrial training communities.

ACTIVITY 7.2.2 Plan and conduct a regional symposium focusing on the services and accomplishments of the East Texas Quality Work Force Planning Committee.

Results:
An informal poll was taken among the TPO board members regarding the need for an electronic bulletin board. The results did not identify sufficient need.

In lieu of a regional symposium, TPO obtained the support of United Telephone of Texas to conduct a legislative appreciation reception in Austin on January 29, 1991. Attendees included state legislators, educators, agency representatives, business and industry persons. The reception focused on the services and accomplishments of the East Texas Quality Work Force Planning Committee. Over 150 guests attended the reception.

Recommendations:
None

OBJECTIVE 7.3 Inform East Texas industries that TPO is a method for communicating training and retraining needs.

ACTIVITY 7.3.1 Ensure that the TPO marketing plan identifies TPO as regional communications channel for training and retraining needs.

ACTIVITY 7.3.2 Promote more active industry involvement in TPO.

Results:
All marketing pieces and public relations articles/ presentations contain statements identifying TPO as a source for coordinating training needs. Efforts were made to promote more active industry involvement. Dr. Bill Leonard, of Rockwell International, spoke on industry involvement at the April TPO board meeting. Dr. Ron Calkins, of LTV Aircraft Products Division addressed the May TPO board meeting.

Recommendations:
None

GOAL 8 Obtain additional funding for TPO.

OBJECTIVE 8.1 Develop a list of regional foundations.

Results:
The Administrative Subcommittee established a list of regional foundations.

Recommendations:
None

OBJECTIVE 8.2 Secure a minimum of $20,000 in annual contributions from public and private sectors.

Results:
A total of $9,900 in outside contributions was collected in the project year.

Recommendations:
None

OBJECTIVE K: Provide complete information to and cooperate fully with staff from the independent contractor selected to evaluate the project.

ACTIVITY: Copies of all routine materials (i.e., brochures, newsletters, plans, reports, committee minutes, etc.) were mailed to the independent contractor.

RECOMMENDATIONS: None

OBJECTIVE L: Deliver to the Project Coordinator the following products:

(1) One approved copy of any proposed data collection instrument,
ACTIVITY: None used

(2) Eight copies of detailed quarterly reports that document progress in meeting all objectives,
ACTIVITY: Quarterly reports were prepared and submitted to Project Coordinator.

(3) Eight copies of a detailed interim report, presented in a narrative format that documents progress in meeting all objectives. Extensive narrative information should be presented for direct, concrete results achieved in implementing the region's plan.
ACTIVITY: The interim report was and submitted to the Project Coordinator.

(4) Fifteen copies, including one camera-ready copy, of a final report presenting findings, results, and recommendations from the activities conducted to meet all objectives.
ACTIVITY: Completed

APPENDIX G

EMERGING TECHNOLOGIES

Technology is often defined as the application of scientific principles to solve problems. The effects of new and emerging technologies can be found all around us. As a nation, a state and as East Texans faced with competition in the global market place, we must become aware of recent technological developments.

Knowledge of these developments will aid us in our efforts to prepare for employment and to advance once we are hired.

The building of a skilled, flexible and internationally competitive work force will be a major benefit to the East Texas economy.

TPO

The **Technology Partnership Organization** is an East Texas effort to help educators make sure that occupational education and training programs meet the work force needs of industry. The TPO board of directors has published and distributed a regional plan for occupational education and training. The document has already brought about improvements in educational programs throughout East Texas.

For more information about theTechnology Partnership Organization and the regional plan, please call (903) 566-7310.

WHO ARE WE?

Technology Partnership Organization (TPO) conducts ***Quality Work Force Planning*** for the 14-county East Texas region.

Our goal is to provide information and support services for developing a skilled and educated work force that will improve the economy of East Texas and increase our regions's ability to compete in a global market place.

Quality Work Force Planning is a state-wide activity required by the 71st Legislature of Texas.

WHAT ARE TARGETED OCCUPATIONS?

One of the objectives toward meeting our goal is to identify existing and projected job openings.

With the help of the TPO Quality Work Force Planning Committee and the use of regional labor market data, a list of twenty-seven (27) occupations having the best potential for growth in East Texas (targeted occupations) was developed. Each occupation in the list requires at least three (3) months of training time.

WHO BENEFITS?

The list of targeted occupations:

1) illustrates to business and industry that occupational education and training programs are being tailored to meet labor market needs,

2) aids education and training providers (high schools, community/junior colleges, etc.) in making curriculum decisions,

3) aids counselors in helping students to make career decisions and

4) provides information for students to consider in choosing courses.

TARGETED OCCUPATIONS

The following preliminary list of targeted occupations are arranged in order of the occupation with the highest potential for job openings identified at the top of the list.

1. RETAIL SALESPERSONS
2. GENERAL MANAGERS
3. CASHIERS
4. SECRETARIES
5. TRUCK DRIVERS
6. GENERAL OFFICE CLERKS
7. REGISTERED NURSES
8. NURSES AIDES
9. LICENSED PRACTICAL NURSES
10. GENERAL MAINTENANCE REPAIRERS
11. AUTO MECHANICS (INCLUDING DIESEL)
12. COMPUTER OPERATORS
13. ELECTRICIANS
14. POLICE PATROL OFFICERS
15. RADIOLOGIC TECHNOLOGISTS
16. COSMETOLOGISTS
17. CHILD CARE WORKERS
18. COMPUTER PROGRAMMER AIDES
19. CORRECTION OFFICERS
20. FIREFIGHTERS
21. MEDICAL LAB TECHNICIANS
22. MEDICAL RECORDS TECHNICIANS
23. PARALEGAL PERSONNEL
24. PHYSICAL THERAPIST ASSISTANTS
25. ELECTRICAL ENGINEERING TECHNICIANS
26. SYSTEMS ANALYSTS
27. RESPIRATORY THERAPISTS

APPENDIX H

TECHNOLOGY PARTNERSHIP ORGANIZATION
REPORT ON
DEVELOPING SECONDARY-LEVEL
STUDENT APPRENTICESHIP LINKAGE PROGRAMS
FOR TARGETED OCCUPATIONS IN EAST TEXAS

INTRODUCTION

The Technology Partnership Organization (TPO) conducts Quality Work Force Planning in East Texas. TPO is one of twenty-four (24) planning entities in the State of Texas, and one of nine (9) pilot projects which are jointly sponsored by a tri-state agency partnership which includes the Texas Education Agency, the Texas Higher Education Coordinating Board and the Texas Department of Commerce. The overall mission of TPO is to help ensure that occupational education and training programs taught in East Texas meet regional labor market needs.

The state outlines several objectives for 1990-91. One objective is to explore and report on the possibility of developing secondary-level student apprenticeship linkage programs for targeted occupations in the region. To conduct this study in East Texas, TPO established an ad-hoc Apprenticeship Subcommittee.

Subcommittee members were:

Clarita Allen, Labor Union Secretary, The Trane Company, Tyler;
Sue Bell, Dir. Occupational & Technical Education, Tyler ISD;
Bill Hanson, Supvr. Operations Training, Texas Eastman, Longview;
Bob Iden, Superintendent and Vocational Director, Winona ISD; and
Dr. Jerry King, Dean of Occupational Education, Trinity Valley Community College, Athens.

Additional input was provided by Mr. Dwight R. Williams of the Alabama Center for Quality and Productivity, Decatur, Alabama.

Each member of the Apprenticeship Subcommittee acquired information related to secondary-level student apprenticeship training programs, historically, and the possibilities for implementation of apprenticeship related training delivery in East Texas in the future. Findings were submitted to the TPO staff for analysis, organization and compilation. Staff members are:

John N. Fabac, Ed.D., Executive Director
Glynn Richards, Assistant Director
Nancy Bass, Administrative Assistant

FINDINGS AND RECOMMENDATIONS

The data revealed that very little has been accomplished in the area of secondary-level apprenticeship training in East Texas. This is primarily due to a lack of opportunities, a lack of cooperation, and an unwillingness to expand the scope of apprenticeships beyond the traditional areas of building and construction trades.

In East Texas, the industry maintaining the highest number of individuals enrolled in apprenticeship programs is Texas Eastman, Inc., located in Longview. Eastman currently has some one hundred and eighty (180) apprentices, all training for occupations in traditional areas. With the changing economy and rapid increase in technology, more and more occupations will lend themselves to opportunities in apprenticeship programs, even in non-traditional areas. Job skills of many workers in East Texas are already obsolete, or soon will be out-of-date because of changes in technology.

One direct drawback for secondary-level student apprenticeship training programs is the age factor. Although a Journeyman Certificate cannot be awarded until the age of twenty-one (21), most apprenticeship programs will not accept an individual under the age of 18, even though regulations in Texas would allow an individual sixteen (16) years of age to be acceptable. Secondary students are also at a disadvantage regarding education. A high school diploma, GED, or some related training or work experience is necessary for participation in most apprenticeship programs.

The lack of cooperation addressed another area of concern for the subcommittee. High school administrators, in the past, have been reluctant to participate in apprenticeship training. Counselors are under the gun to encourage students to graduate from high school and enter college. It is also hard for high school administrators to implement apprenticeship training and meet the requirements of the state for vocational/technical education and the required core courses. Because the current high school courses are not considered acceptable as related training delivery for apprenticeship training,

most apprenticeship programs will not credit them.

There is also a lack of support from the business community. High school students may not be eligible for union programs or other membership programs.

Employers are slow to participate in apprenticeship programs. This is not only true of high school training programs, this is true for apprenticeship training at any age. The assessed line of thinking of some companies in East Texas is that since Texas is a "right to work state", organized labor should not be a part of the Texas work force. In some cases, they would rather change immigration laws that would enable them to import skilled workers from other countries than to train people in their own. Additionally, many companies are simply reluctant to deal with the Department of Labor or any government agency.

Although traditional apprenticeship programs (e.g., electricians, plumbers, machinists) for secondary-level students are difficult to break into, another route may be the non-traditional areas such as health care, marketing, auto body, secretaries, or computer peripherals. Apprenticeship type programs have already been established in other regions in the state. Richardson ISD offers a management internship program for students who maintain a high grade point average. This internship has an emphasis on professional services and includes occupational training for students seeking careers in banking, law and accounting. Grand Prairie ISD offers a program in automotive technology, with on-the-job training, which, after meeting the required criteria, leads to a high school diploma and a certificate in Auto Service Excellence (ASE).

Non-traditional apprenticeship programs have already proven to be successful in Alabama. Dwight Williams, with the Alabama Center for Quality and Productivity, has helped to implement apprenticeship programs in his state . These programs cover forty-four (44) different principle subject areas; and there is the support of thirty (30) school systems and one hundred and twenty-four (124) companies.

Currently, two hundred (200) students are participating in these programs. Follow-up data indicates that 73% of the initial participants were retained the first year and 78% in the second year.

Implementation of secondary-level student apprenticeship linkage programs will involve a concentration of efforts in several areas.

1) Indoctrinate high school administrators including superintendents, vocational education directors and coordinators, and counselors regarding the need for and the benefits to be derived from secondary-level training delivery programs with in-service meetings.

2) Conduct workshops for teachers and encourage them to work with placement of students.

3) Explain program to companies (small companies have proved to be more cooperative) and the reimbursements that are available for their support and participation.

4) Certify the program with the Department of Labor.

5) Place designated students with targeted companies as 12th graders to work half of the day on the job and half of the day in school. Students receive high school credit and apprenticeship credit. (Students must have one (1) year training in 10th or 11th grade.)

6) Maintain close follow-up and tracking of placed students, and provide the necessary counseling and support for both the students and the companies.

These activities have already proven to be effective in creating significant change toward developing a skilled work force in Alabama. If the current ideology, regarding training in East Texas, is not altered, the absence of skilled workers will continue to rise. This means that companies will not be able to expand or succeed. Therefore, neither the companies nor the region will be able to compete in the global economy.

APPENDIX I

TECHNOLOGY PARTNERSHIP ORGANIZATION REPORT

SKILLS INVENTORIES FOR TARGETED OCCUPATIONS IN EAST TEXAS

INTRODUCTION

The Technology Partnership Organization (TPO) conducts Quality Work Force Planning in East Texas. TPO is one of twenty-four (24) planning entities in the State of Texas, and one of nine (9) pilot projects which are jointly sponsored by a tri-state agency partnership which includes the Texas Education Agency, the Texas Higher Education Coordinating Board and the Texas Department of Commerce. The overall mission of TPO is to help ensure that occupational education and training programs taught in East Texas meet regional labor market needs.

The state outlines several objectives for 1990-91. One of these objectives is to develop skills inventories for at least two priority occupations within the region. The task forces shall provide the skills inventories to entities training students for the occupations and assist those entities in making appropriate competency-based curriculum modifications.

Dr. Jerry King, Dean of Occupational Education at Trinity Valley Junior College (TVCC) and co-chair for the Technical/Vocational Subcommittee with TPO, assumed responsibility for the implementation of this objective. Dr. King selected professional secretaries and police patrol officers as the targeted occupations for which skills inventories would be developed. Using advisory committees comprised of industry personnel from each of these occupations, a step-by-step process was implemented using the DACUM (developing a curriculum) method. The advisory committee began by developing a job description for each occupation. The next step was to determine what competencies were needed to perform the jobs efficiently. This required identifying specific duties and their related tasks. Once the initial competencies were established they were further validated with additional experts currently employed in these fields. Participants were asked to acknowledge the competencies that represent essential

skills for entry-level employment and to make recommendations for any modifications. By utilizing this method for identifying skills, some of the original competencies were deleted because they were not considered essential for entry-level employment; others were modified to meet job criteria. The final inventory was submitted to TPO for use in meeting state requirements and for assisting training entities offering programs in business office occupations and criminal justice.

SKILLS INVENTORY FOR
POLICE PATROL OFFICERS

DUTY: PERFORMING PATROL DUTIES

- TASK: Check Abandoned Vehicle
- TASK: Check Building/Business Area For Security
- TASK: Check Residential Area For Security
- TASK: Check School/Recreational Area For Security
- TASK: Check Suspicious Person In A Vehicle
- TASK: Check Suspicious Person Who Is Not In A Vehicle
- TASK: Engage In A Stake-Out
- TASK: Follow Suspect On Foot
- TASK: Inspect Patrol Unit And Equipment
- TASK: Search Person For Weapon Using The Stop And Frisk Method
- TASK: Serve Summons
- TASK: Transmit And Receive With Radio Using 10-Dash System

DUTY: PERFORMING GUARD DUTIES

- TASK: Escort Prisoner On Foot
- TASK: Escort Vehicle At High Rate Of Speed
- TASK: Escort Vehicle At Non-Emergency Speed
- TASK: Escort Vehicle Carrying Valuables Or Person Requiring Protection
- TASK: Guard Building
- TASK: Guard Individual
- TASK: Transport Prisoner In Patrol Unit With Shield

DUTY: PERFORMING TRAFFIC DUTIES

- TASK: Check Vehicle Speed With Radar
- TASK: Direct Vehicle Traffic With Hand Signals
- TASK: Follow Vehicle With Patrol Unit
- TASK: Give Field Sobriety Test
- TASK: Impound Vehicle Involved In Accident/Crime

TASK: Issue Traffic Violation Citation
TASK: Secure Traffic Accident Scene
TASK: Secure Crime Scene
TASK: Stop Vehicle With Patrol Unit
TASK: Stop Suspected Intoxicated Driver

DUTY: INVESTIGATING AN INCIDENT
TASK: Interrogate Crime Suspect
TASK: Interview Children
TASK: Interview Accident Witness
TASK: Interview Crime Witness
TASK: Interview Accident Victim
TASK: Interview Crime Victim
TASK: Interview Uncooperative Individual
TASK: Make A Sketch And Scale Diagram Of Crime
TASK: Preserve Physical Evidence
TASK: Search Building For Evidence
TASK: Search Building For Suspect
TASK: Search Person Prior To Booking
TASK: Search Land Area For Evidence/Missing Person
TASK: Search Vehicle For Evidence
TASK: Tag Evidence For Identification

DUTY: PERFORMING ARREST DUTIES
TASK: Arrest Felony Suspect In A Vehicle With Patrol Unit
TASK: Arrest Person Not In A Vehicle
TASK: Book Prisoner
TASK: Execute Arrest Warrant
TASK: Handcuff Person With Handcuffs
TASK: Move Resisting Person With Arm Wrist Come-Along Hold
TASK: Record Arrestee's Statement
TASK: Search Person Incidental To Arrest
TASK: Stop Person Fleeing On Foot

DUTY: PERFORMING CLERICAL DUTIES

- TASK: Complete Report Forms
- TASK: Complete Waiver Of Search Warrant Form
- TASK: Prepare Affidavit Form
- TASK: Prepare Case Brief For Court Testimony

DUTY: FIRING AND MAINTAINING WEAPONS

- TASK: Clean Handgun
- TASK: Clean Shotgun
- TASK: Fire Handgun
- TASK: Fire Shotgun

DUTY: PERFORMING EMERGENCY FUNCTIONS

- TASK: Administer Artificial Respiration By Mouth-To-Mouth Resusitation
- TASK: Administer Emergency Child Birth Assistance
- TASK: Administer First Aid To Prevent Shock
- TASK: Apply Pressure At Points To Control Bleeding
- TASK: Apply Pressure Dressing To Control Bleeding
- TASK: Drive Patrol Unit At High Speed To Reach Emergency
- TASK: Remove Accident Victim Manually From Vehicle
- TASK: Transport Injured Person In Patrol Unit

DUTY: PERFORMING DEFENSIVE TACTICS FUNCTIONS

- TASK: Defend Self Against Knife Attack
- TASK: Disarm Person With Handgun/Shoulder Weapon
- TASK: Free Self From Forearm Strangle Hold From Rear

SKILLS INVENTORY FOR PROFESSIONAL SECRETARIES

DUTY: ORGANIZING TIME TO COMPLETE WORK ASSIGNMENTS

- TASK: Analyze Job And Devise Structured Plan To Reduce Wasted Time And Increase Productivity
- TASK: Use Good Judgement In Establishing Priorities
- Task: Use Time Saving Procedures And Devices

DUTY: MAINTAINING A WELL-ORGANIZED WORK STATION

DUTY: PERFORMING DOCUMENT-PRODUCING TASKS USING INFORMATION PROCESSING EQUIPMENT

- TASK: Exhibit Expert Keyboard Skills
- TASK: Understand And Use Special Features Of Information Processing Equipment (e.g., Merge, Pagination)

DUTY: PRODUCING MAILABLE COMMUNICATIONS AND CARRYING OUT INSTRUCTIONS FROM MANUAL OR MACHINE DICTATION

- TASK: Use Keyboards From Both Longhand And Typewritten Rough Drafts, Pre-Recorded Dictation, And Machine Dictation
- TASK: Edit Rough Drafts
- TASK: Use Proper Procedures And Techniques With Transcription Machines
- TASK: Use Listening And Decision-Making Skills When Transcribing
- TASK: Select Proper Stationary And Format

DUTY: USING BUSINESS KNOWLEDGE, SKILLS AND VOCABULARY IN PROCESSING WORK ASSIGNMENTS

DUTY: CARRYING OUT ASSIGNMENTS WITH LIMITED GUIDANCE OR SUPERVISION

- TASK: Grasp And Follow Instructions Quickly

TASK: Organize Materials And Supplies For Efficient Handling And Use Equipment And Resources Effectively

TASK: Meet Expected Deadlines Within A Regular Working Day (Except In Unusual Situations)

DUTY: EXHIBITING A HIGH LEVEL OF MENTAL CONCENTRATION AND DEMONSTRATING THE ABILITY TO WORK UNDER PRESSURE OF PRODUCTION REQUIREMENTS

DUTY: REPRODUCING ALL TYPES OF TYPEWRITTEN AND PRINTED DOCUMENTS

TASK: Effectively Use Different Types Of Reprographic Processes

TASK: Prepare Materials To Be Reproduced

TASK: Properly Use Copy Machine

TASK: Follow Copyright Guidelines

DUTY: APPLYING BASIC LANGUAGE ARTS SKILLS

TASK: Use Correct Grammar

TASK: Punctuate Correctly

TASK: Use Capitalization Correctly

TASK: Use Possessives Properly

TASK: Use Abbreviations Correctly

DUTY: CHECKING ALL DOCUMENTS FOR ACCURACY

TASK: Proofread Letters, Memos, And Reports For Correct Grammar; Punctuation; Spelling; Logical, Clear Content; And Correct And Complete Data

TASK: Proofreads Statistical Copy For Accuracy And Adds Columns Of Figures If A Total Is Given

DUTY: PROCESSING MAIL QUICKLY AND EFFICIENTLY

TASK: Sort, Open, Date Stamps, Prioritize, And Distribute Mail To Specified Individuals And/Or Departments

TASK: Expedite The Executive's Handling Of The Mail

TASK: Keep Mail Register If Required

TASK: Prepare Outgoing Mail

TASK: Address Envelopes Properly

TASK: Use Different Classes Of Mail Properly

TASK: Practice Reducing Mailing Costs

TASK: Handle Special Problems That Arise In Processing Mail

DUTY: HANDLING TELEPHONE DUTIES SKILLFULLY

TASK: Take Appropriate Action In A Given Situation (i.e., Problem Calls, Transferring Calls)

TASK: Use Appropriate Techniques In Placing And Receiving Calls

TASK: Develop Good Telephone Personality And Use Proper Etiquette

TASK: Record And Deliver Telephone Messages

DUTY: SCHEDULING APPOINTMENTS

TASK: Exhibit Professional Behavior When Receiving Callers And Scheduling Appointments

TASK: Follow Employer's Scheduling Preferences

TASK: Record Complete Information For Scheduling And Coordinating Appointments

DUTY: COMPOSING BUSINESS DOCUMENTS

TASK: Use Characteristics Of An Effective Business Letter

TASK: Plan The Letter Before Composing

TASK: Identify Different Parts Of The Letter And Use Correct Placement

TASK: Select Appropriate Salutations And Complimentary Closes

TASK: Construct And Format Charts And Tables

TASK: Use Appropriate Business Forms

DUTY: ARRANGING BUSINESS RECORDS

- TASK: Identify And Determine Best Filing Method
- TASK: Apply Filing Rules
- TASK: Prepare Records For Filing
- TASK: Prepare Folders And Labels For Records To Be Filed
- TASK: Maintain Confidentiality Of Records
- TASK: Make Recommendations For The Acquisition Of The Proper Filing Supplies And Equipment

DUTY: ASSISTING USERS IN THE RETRIEVAL AND USE OF RECORDS

- TASK: Develop Chargeout And Follow-up Procedures
- TASK: Retrieve Records From Inactive Files When Requested

DUTY: UTILIZING INFORMATION PROCESSING AND COMPUTER TECHNOLOGIES

- TASK: Retrieve Records Through Computer Output Microfilm
- TASK: Store Records With Computer Assisted Software

DUTY: PERFORMING ACCOUNTING TASKS

- TASK: Establish And Maintain Petty Cash Fund
- TASK: Keyboard Financial Statements
- TASK: Maintain Financial Records

DUTY: PERFORMING BANKING ACTIVITIES

- TASK: Make Deposits, Write And Record Checks, Endorse Checks, And Reconcile Bank Statements
- TASK: Use Electronic Fund Transfer, Direct Deposit Or Payment, Telephone Transfer, Etc.

DUTY: OPERATING OFFICE MACHINES TO COMPUTE OR PRODUCE FINANCIAL RECORDS

DUTY: RECORDING, TRANSCRIBING AND DISTRIBUTING MEETING MINUTES

APPENDIX J

ADDITIONAL INFORMATION

1. The Operational Plan (Service Delivery Plan) was widely distributed (e.g., superintendents, vocational directors, deans of occupational education, chambers of commerce and all economic development organizations, mayors and city managers, senators and state representatives, all board members, county judges, etc.).

2. Dr. Fabac and Glynn Richards attended the East Texas Economic Development Commission Data Base Subcommittee meeting in Kilgore on August 3, 1990.

3. Joe Arciniega, Dr. Fabac and Glynn Richards developed a letter of solicitation for private sector.

4. Glynn Richards spoke at the Northeast Texas Economic Development Roundtable on August 15, 1990, and presented the 1990 Directory of Economic Development Support Services.

5. Dr. Fabac gave presentation of Quality Work Force Planning and TPO to the UT Tyler technology faculty on Sept. 6, 1990.

6. TPO staff met with Elvis Shoaf of TEA on Sept 6, 1990. Dr. Fabac discussed strategies for implementing service delivery plan objectives and marketing Quality Work Force Planning.

7. Executive Committee and Board of Directors met at Marshall ISD on Sept. 11, 1990. Guest speaker was Tom Linehan of the Texas Dept. of Commerce was the guest speaker.

8. Glynn Richards presented the East Texas 1990-91 service delivery plan to Dr. Lauro Cavazos, U.S. Secretary of Education, on Sept. 11, 1990.

9. Nancy Bass gave presentation of Quality Work Force Planning and TPO at John Tyler High School on Sept. 18, 1990.

10. Dr. Fabac met with Tony Martin, Director of the Longview Chamber of Commerce on Sept. 28, 1990.

11. Dr. Fabac gave a presentation on Strategic Work Force Planning to the Strategic Planning Committee at UT Health Center on that same day.

12. Mr. Bill Hanson of Texas Eastman was recommended as an apprenticeship representative to the TPO board by Ms. Toni Dean of the Texas Education Agency. Although Mr. Hanson declined participation as a board member, he has been helpful in providing input for the development of the TPO report on of developing secondary-level student apprenticeship linkage programs for targeted occupations in East Texas.

13. Dr. Fabac delivered a presentation on Quality Work Force Planning to the Texas Association of Postsecondary Occupational Education Administrators on Austin on Oct. 3, 1990.

14. Glynn Richards gave presentation on Quality Work Force Planning to the Texas Association of Secondary Administrators in Nacogdoches on Oct. 9, 1990.

15. Mr. Richards also gave presentation on Quality Work Force Planning to the Kiwanis Club in Athens on Oct. 16, 1990.

16. Nancy Bass gave a presentation to the Mineola Kiwanis Club on the same day.

17. Dr. Fabac gave presentation on Quality Work Force Planning at the Texas Employment Commission on Oct. 25, 1990.

18. Dr. Fabac and Glynn Richards met with Charlie Gunter, plant manager of Cooper Oil Tool Co. in Tyler, to discuss his need for machinists.

19. Glynn Richards conducted a needs assessment for CNC (computer numerical control) machinists with leading manufacturers of industrial and commercial machinery and equipment in East Texas.

20. Dr. Fabac participated in the meeting with the Texas Vocational Administrators and Supervisors Association at Tyler Junior College.

21. John Fabac addressed the Texas Association of Minority Engineers on Nov. 6, 1990. Dr. Fabac was appointed as a TAME director.

22. John Fabac gave presentation to students at Malakoff High School on Nov. 13, 1990.

23. Glynn Richards gave presentation on Quality Work Force Planning to an Administrators and Supervisors Workshop at UT Tyler on Nov. 16, 1990.

24. Dr. Fabac assisted by Glynn Richards conducted two (fall and spring), three week, seminar courses at UT Tyler on Quality Work Force Planning.

25. Glynn Richards attended the GLOBE (Greater Longview Organization of Business and Education) summit meeting at Pine Tree Junior High School on Nov. 29, 1990.

26. Dr. Fabac met with Senator Ted Lyons in Dallas on Dec. 18, 1990 to discuss Quality Work Force Planning.

27. Dr. Fabac acquired PIC approval of the East Texas 1990-91 Operational Plan (service delivery plan) at the Dec. 20, 1990 meeting.

28. Dr. Fabac attended the Northeast Texas Economic Development Roundtable meeting in Gilmer on Jan. 16, 1991.

29. Economic Outlook Conference attended at UT Tyler on Jan. 28, 1991. Featured speaker was Dr. George Kosmetsky of The University of Texas system.

30. Superintendent Zone Meetings were held February 5th, 6th, 7th, and 8th. Zone sites were Chapel hill ISD, Henderson ISD, Frankston ISD, Mineola ISD and Hallsville ISD. The topics addressed were 2+2, articulation or Tech-Prep programs as defined by the Carl D. Perkins Vocational and Applied Technology Act.

31. TPO staff and two board members, Bill Alexander and Jon McCall, participated in the Quality Work Force training seminar held in Austin on March 27 and 28, 1991.

32. On April 17, 1991 Tim Birmingham, Western Lithotech and Mary Lookadoo, Frankston ISD testified on behalf of Quality Work Force Planning before the Senate Committee on Education in Austin.

Future Holds Non-Traditional Jobs

By TONY FLOYD
Business Editor

Blame it on falling oil prices.

For the 14-county region surrounding Tyler, the gross regional product plunged by $1.3 billion — or 14 percent — between the first quarter of 1982 and the fourth quarter of 1986 and achieving a sustained recovery has been a slow and often painful process.

According to a study conducted by Tim D. Kane, director of business and economic research at the University of Texas at Tyler, East Texas' initial response to economic adversity was to adopt the traditional posture of layoffs and plant closings, followed by the inevitable — bankruptcies and foreclosures.

Kane's study showed building permits in Smith and Gregg counties peaked at $216.5 million in 1977, declining by 68 percent to $65.5 million by 1988.

Still, on the positive side, Kane said economic adversity sparked an offensive response from East Texas community leaders that finally is showing rewards.

An even though jobs of the future are likely to be a far departure from the oil-patch, smokestack variety that have characterized the area's economy through the years, Kane and officials for the Technology Partnership Organization, created in 1987 to help forge a job training advisory alliance between public and private sectors, believe East Texas' future prosperity will depend more on its ability to develop human resources than its ability to extract natural resources.

"The TPO survey shows there will be a substantial need for health-care professionals and technicians throughout the area as the Baby Boomers move firmly into middle age."

As evidence of the evolving East Texas labor market, occupations showing the most growth potential are in health services, miscellaneous retail, food handling, general merchandising, real estate, bus services, social services, electricity and gas utilities.

Ranking far down the list at place 27 is oil and gas extraction, just below apparel accessories and above printing and publishing.

The TPO survey shows there will be a substantial need for health-care professionals and technicians throughout the area as Baby Boomers move firmly into middle age.

And while there will be stable growth in traditional service-oriented positions — police officers, firefighters, clerks, cashiers — the survey clearly shows demand for traditional heavy manufacturing jobs will be stagnant at best.

What that means to East Texas workers is that employment opportunities in the future are likely to be in non-traditional roles — many of which may not even exist in today's economy.

Winners And Losers

A New State Program Combines Private And Public Resources To Shape Workforce Skills For The Future

East Texans' economic prospects may hinge on their willingness to accept change and focus on attaining jobs of the future, officials for a new state job training partnership program say.

While debate over lagging skill levels of Texans in general, and East Texans in particular, generally has been confined to the public sector — educators, government employees, politicians and the like — competitiveness has evolved into an issue of widespread concern, extending to virtually all occupations and socio-economic levels — both private and public.

For at least two decades, Americans have been warned that their young people were falling farther behind their Asian and European counterparts, particularly in the fields of math, science and engineering.

And, based on that data, it came as no surprise to many that declining United States competitiveness in the classrooms of the '60s and '70s translated into enormous national trade deficits in the '80s.

For Texas, it took a series of global events leading to catastrophic collapses in the oil and gas industry in 1986 to trigger a willingness to re-evaluate priorities and direction at the state level.

A year later, the 71st Legislature amended the Texas Election Code mandating regional planning for vocational-technical education and training.

Combining resources of the Texas Education Agency, Texas Higher Education Coordinating Board and the Texas Department of Commerce, legislators created a tri-agency partnership to implement Quality Work Force Planning (QWFP) in the state's 24 planning regions.

For Tyler and surrounding area — Region 6 — QWFP is based at the University of Texas at Tyler, incorporating future private- and public-sector work force requirements for Smith, Anderson, Camp, Cherokee, Gregg, Harrison, Henderson, Marion, Panola, Rains, Rusk, Upshur, Van Zandt and Wood counties.

Along with receiving direction and funding from the three state agencies, the East Texas QWFP program is led by the two-year-old Technology Partnership Organization (TPO), sponsored by UT-Tyler.

Locally, TPO officials say their role has been to establish a partnership between employers and educators to develop a skilled and educated work force to enhance area economic development and competitiveness in a global economy.

With ongoing growth in international competition and the impact of advances in technology and communication, more East Texas business officials are condeding that more sophisticated equipment and technology will be incorporated into their routine operations in the years ahead if they expect to remain competitive and retain markets.

While the Texas work force has traditionally been considered an asset for economic development, Texas workers in the post-oil boom era have been charcaterized by some as undereducated, untrained and less than productive.

In keeping with QWFP guidelines, TPO plans to create a network incorporating high schools, commmunity/junior colleges and universities with business, industry and government.

The alliance should provide help in coordinating and integrating education programs with existing and projected private-sector employment and skill requirements, said John Fabac, Tyler-based TPO director.

Further, Fabac said TPO plans to create regional computerized information providing data on the 14-county labor market's needs and trends.

In Region 6, TPO encompasses five regional commmunity/junior colleges, 73 independent school districts, a private industry council and hundreds of private businesses and industries.

"Our goal is to make sure that a skilled, flexible and internationally competitive work force is prepared in East Texas based on verified labor market data," Fabac said.

Beryl McKinnerney, dean of occupational education at Kilgore College, said QWFP would offer new opportunities for vocational/technical educators, even though East Texas community colleges are not strangers to regional planning.

"As a major catalyst in economic development, the community colleges will be postured to work in a cooperative effort to assist in attracting new industry to East Texas as well as expand existing businesses," McKinnerney said.

"Improved communication and coordination between partners in regional planning will result in a better trained work force for East Texas," he said. "Regional planning for occupational education is a win-win opportunity for community colleges, secondary schools, other higher education institutions, the private sector and the public sector."

TPO board member Gene Meier, regional manager of external affairs for Southwestern Bell, cited studies showing the work force is running out of skilled, qualified people.

Meier said a recent poll of private-sector personnel officers showed 67 percent were having "great to very great" difficulty finding technical and other skilled workers.

"This is not our schools' problem," he said, "it is our collective problem — educators, business people, government, parents and the students themselves.

"It will take business and education leaders throughout the state working together to overcome the problem," he said.

"A quality work force will be the major factor in supporting the needs of existing businesses and in drawing new industries to our region in the near future," Meier said.

Around the region, Fabac cited Tyler Junior College's Regional Training and Development Complex (RTDC), which features an education center, Small Business Development Center and the Tyler Area Business Incubator.

Elsewhere in Region 6, Kilgore College's Adult Education Center, which opened in June, puts the East Texas Police Academy, Probation and Detention Academy, Institute for the Protection of Children and Adults and costmotology training all under one roof.

In Carthage, Panola Junior College contracts with area industries to provide literacy training for their employees.

At PJC, an unconventional teaching approach removes much of the fear and anxiety commonly associated with adult learning, Fabac said.

Regional planning group sets meeting

TYLER — The Technology Partnership Organization for Regional Planning will hold its regular bi-monthly board of directors meeting at 1:30 p.m. Tuesday at the Trane offices at 6200 Troup Highway.

The guest speaker for the meeting will be Samuel Webster Jr., manager of educational affairs with Texas Instruments of Dallas.

Webster has held his position with Texas Instruments for five years, and he also has taught marketing and management courses at Southern Methodist University and University of Texas at Dallas. He holds a bachelor's degree in electrical engineering from University of Virginia and a master's degree in business administration from University of Dallas.

For more information about the meeting, contact Glynn Richards at 566-7310.
